

Brand Book

WORK
4 CHANGE
ASIA

Color Palette

The Work4Change Asia color palette is designed to balance institutional credibility with warmth and optimism, reflecting a platform that is both trustworthy and human-centered.

Teal Blue

#0A3B44

Use as the main brand color for backgrounds, navigation, headers, and key structural elements. It provides visual stability, reinforces trust and professionalism, and anchors the identity across digital and print applications.

Warm Orange

#FF8A42

Use to highlight primary actions, calls to action, and key emphasis areas. This color brings energy, optimism, and a sense of opportunity, helping guide users toward engagement without overpowering the layout.

Bright Teal

#2AB5C8

Use as an accent color for icons, buttons, links, data highlights, and secondary emphasis elements. It adds contrast, improves visual hierarchy, and supports clarity and forward momentum across interfaces.

Soft White

#F4F1EC

Use for main content backgrounds and large light areas. It maintains readability, reduces visual fatigue, and creates a clean, approachable foundation for text-heavy content.

Color Palette

The secondary color palette adds depth and flexibility to the visual identity. Neutral tones support readability and structure, while warmer accents introduce contrast and warmth. Together, they help maintain a clear, balanced, and accessible design across all applications.

Black

#000000

Use sparingly for body text, captions, dividers, and high-contrast elements. It ensures maximum readability and supports accessibility across digital and print materials without overpowering the primary palette.

Charcoal Gray

#3B3B3B

Use for secondary text, icons, UI elements, and supporting backgrounds. It provides hierarchy and structure while maintaining a softer, more approachable contrast than pure black.

Rust Orange

#C45A23

Use as a secondary highlight color for emphasis elements, illustrations, data visualisation, and selected backgrounds. It adds warmth and depth while reinforcing the brand's energetic and mission-driven tone.

Pale Blue

#A7BFC8

Use for secondary backgrounds, cards, tables, and content sections. It helps separate information clearly while keeping layouts clean, calm, and readable.

Warm Brown

#D68A55

Use for complementary accents, illustrations, and supportive visual elements. This tone brings an earthy, grounded feel that reinforces sustainability, regional context, and human warmth.

Typography

Manrope is the primary typeface for Work4Change Asia. Modern, clean, and highly readable, it supports clear communication while remaining approachable and inclusive. Its range of weights allows for strong hierarchy and flexibility across digital platforms, presentations, and editorial content.

Manrope

REGULAR

SEMI BOLD
